Mina,

I tested it and got a '6'.

Let me double-check and I will get back to you shortly.

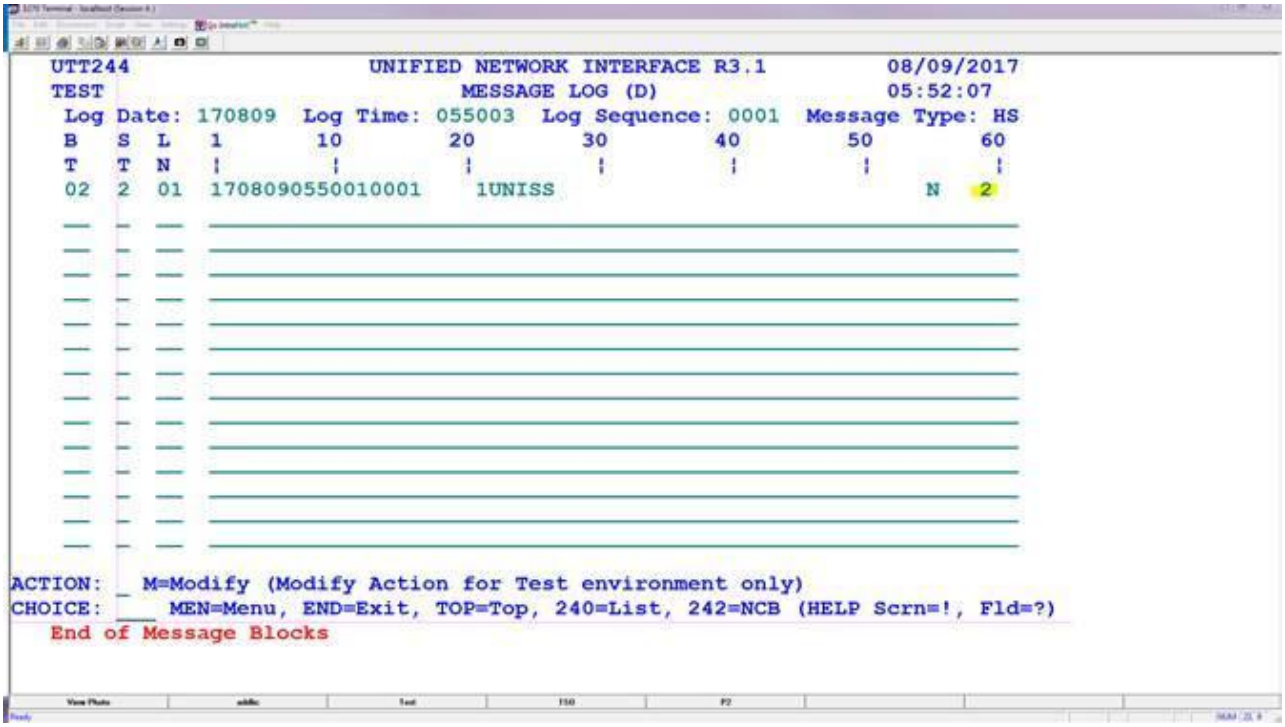

Thanks,
Nadeem

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

This email comes from an external source, so remember, Think Before You Click!
Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Thanks for running that. I'll need to spend time fixing the name validations but we should be able to retest C15. Can we try it again?

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

It appears the MPR is still there for Driver A. Let me know if you need me to delete and re-add it.

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

It appears the MPR is still there for Driver A. Let me know if you need me to delete and re-add it.

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Thanks for running that. I'll need to spend time fixing the name validations but we should be able to retest C15. Can we try it again?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Ok, the name validations need some work. Is it possible to jump ahead and run D12? We can re-run it after the fix but just wanted to see if those conditions are correct.

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The error and the Processing Status is fine for # D19.

But, the HG message is error should have the other elements populated as per the following section in the Master Specification:

CD03.3.3.4 Transmission of State Request for Status (SG), Status Response (HG) Message with Errors:

CD03.HG.TRN.ERR.0200	Driver Mailing Address (DDVADD)	CLMF-DRVHIST-MAILING-ADDR Format=Alpha-numeric Size=71	Set to '@@@@'	1-1
CD03.HG.TRN.ERR.0300	Driver License Number of Permits (DDLNMP)	CLMF-NUMB-PERMITS Format=Alpha-numeric Size=1	Set to '0'	1-1

CD03.HG.TRN.ERR.0400	Driver License Commercial Class Code (DDLCL2)	CLMF-DESC-CDL-CLASS Format=Alpha-numeric Size=3	Set to blanks	1-1

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the

problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The error and the Processing Status is fine for # D19.

But, the HG message is error should have the other elements populated as per the following section in the Master Specification:

CD03.3.3.4 Transmission of State Request for Status (SG), Status Response (HG) Message with Errors:

CD03.HG.TRN.ERR.0200	Driver Mailing Address (DDVADD)	CLMF-DRVHIST-MAILING-ADDR Format=Alpha-numeric Size=71	Set to '@@@@'	1-1
CD03.HG.TRN.ERR.0300	Driver License Number of Permits (DDLNMP)	CLMF-NUMB-PERMITS Format=Alpha-numeric Size=1	Set to '0'	1-1
CD03.HG.TRN.ERR.0400	Driver License Commercial Class Code (DDLCL2)	CLMF-DESC-CDL-CLASS Format=Alpha-numeric Size=3	Set to blanks	1-1
CD03.HG.TRN.ERR.0500	Driver License Non-Commercial Class Code (DDLCL3)	CLMF-DESC-NON-CDL-CLASS Format=Alpha-numeric Size=3	Set to blanks	1-1
CD03.HG.TRN.ERR.0600	Driver License Non-Commercial Status (DDLNTS)	CLMF-DESC-NON-CDL-STATUS Format=Alpha-numeric Size=3	Set to blanks	1-1
CD03.HG.TRN.ERR.0700	Driver License Commercial Status (DDLCTS)	CLMF-DESC-CDL-STATUS Format=Alpha-numeric Size=3	Set to blanks	1-1
CD03.HG.TRN.ERR.0800	Number of Driver License Restrictions (DDLNMR)	CLMF-NUMB-DL-RESTR Format=Alpha-numeric Size=2	Set to '00'	1-1
CD03.HG.TRN.ERR.0900	Total Convictions Sent (DDTTCS)	CLMF-NUMB-CONV-SENT Format=Alpha-numeric Size=2	Set to '00'	1-1
CD03.HG.TRN.ERR.1000	Total ACD Convictions on Record (DDTTCR)	CLMF-NUMB-CONV-RECORD Format=Alpha-numeric Size=2	Set to '00'	1-1

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Sent: Friday, July 14, 2017 11:14 AM
To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>; Holenarsipura, Subramanya <SHolenarsipura@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Sent: Friday, July 14, 2017 11:14 AM
To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>; Holenarsipura, Subramanya <SHolenarsipura@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Mina,

I tested it and got a '6'.

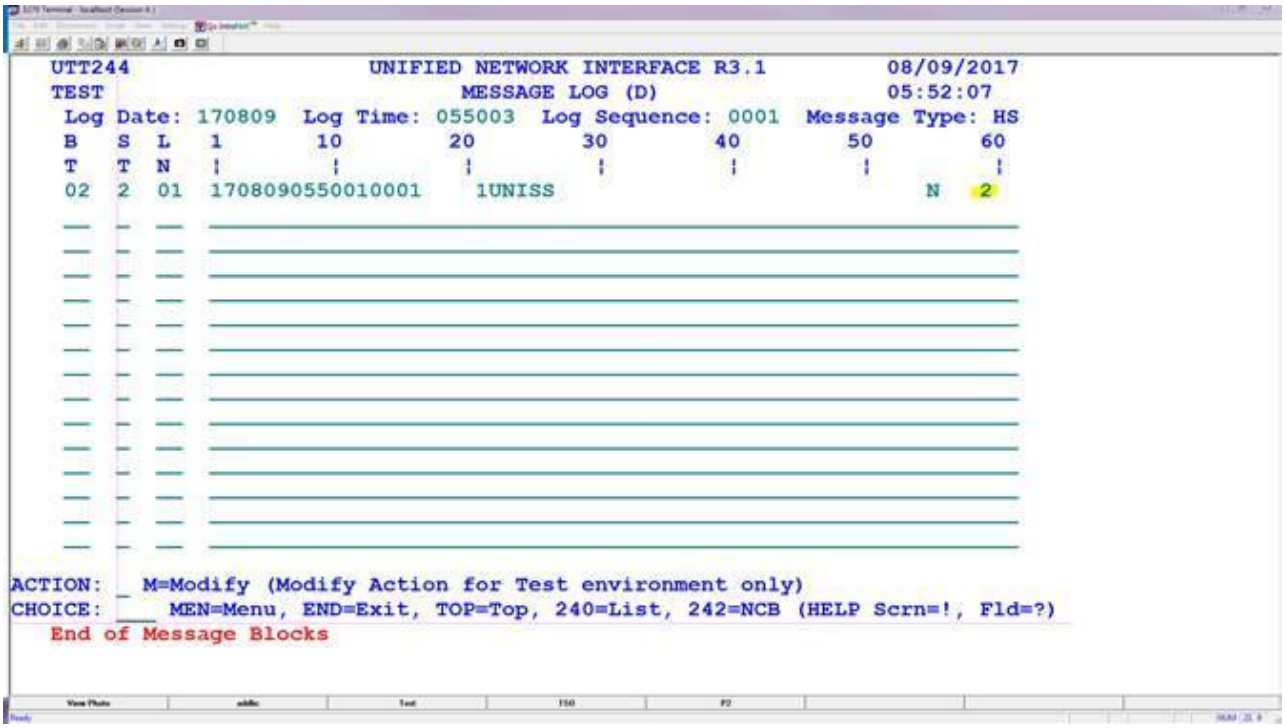

Let me double-check and I will get back to you shortly.

Thanks,
Nadeem

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to the local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to the local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Regards,

Mina Peters

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

Mina,

Please try the test data below -

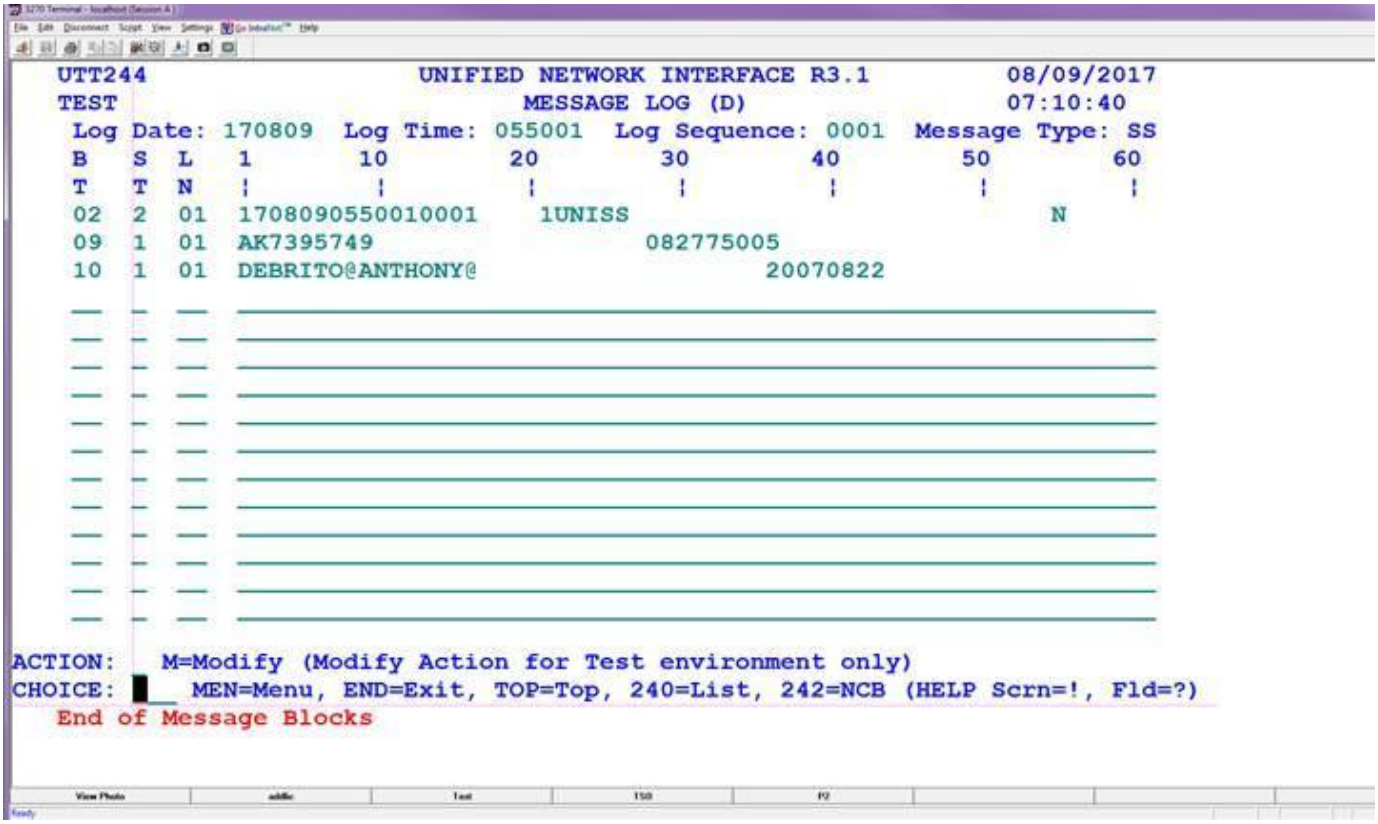

DOB: 08/22/1907
First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-07-7500

Thanks,
Nadeem

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

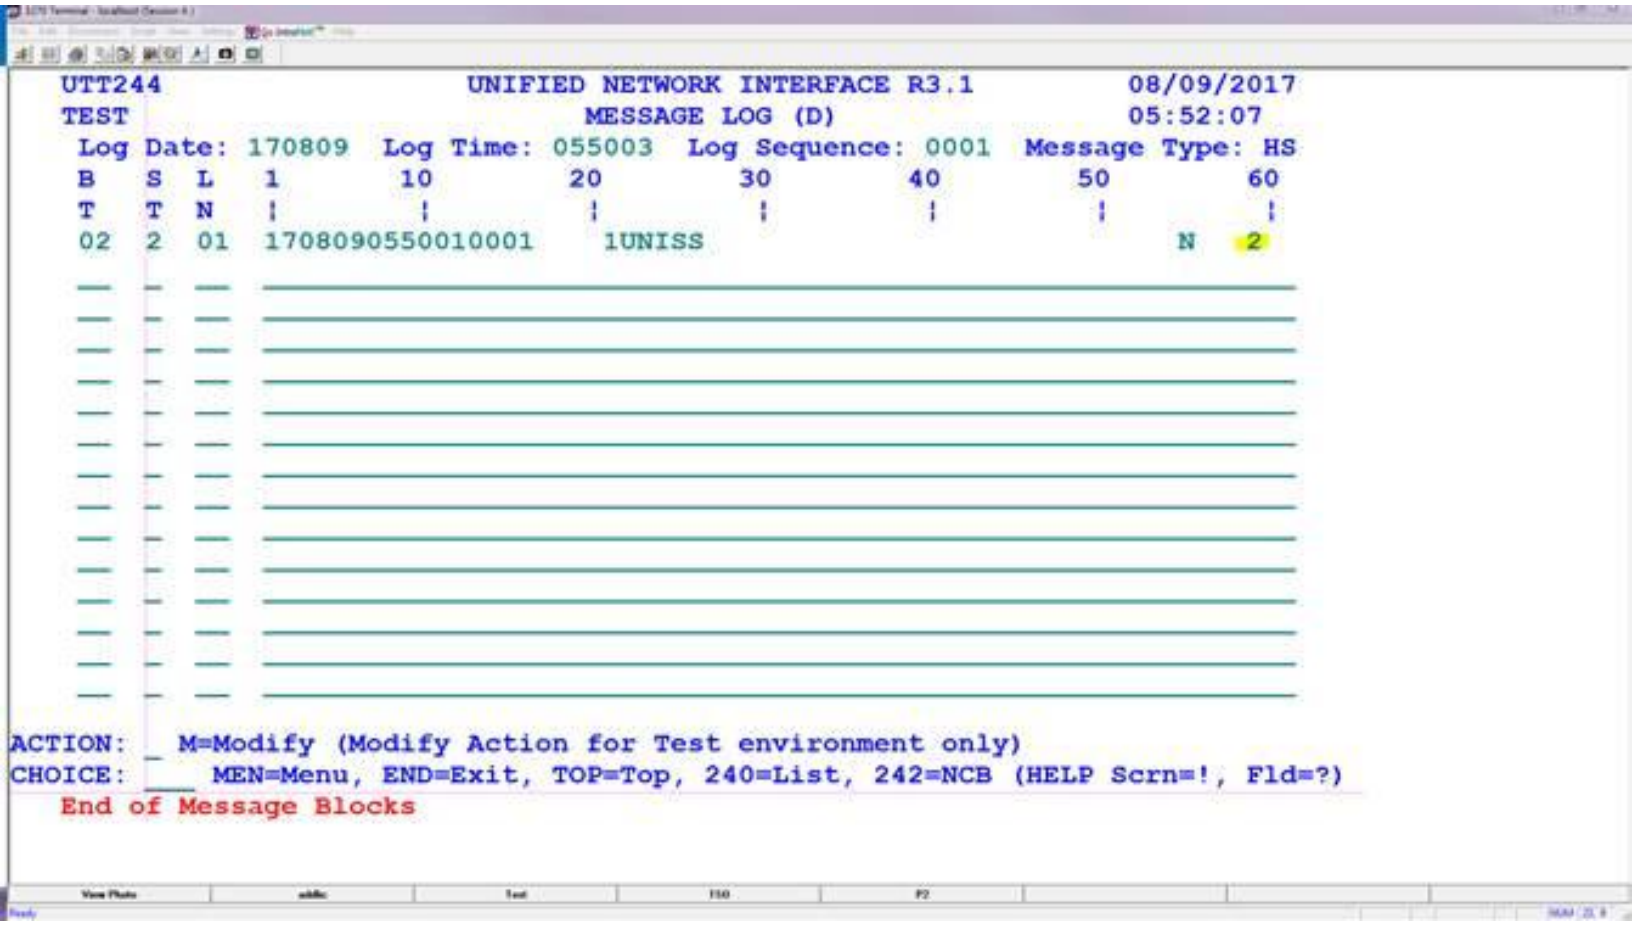

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to the local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

This email comes from an external source, so remember, Think Before You Click!
Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

I was expecting # D2 in error “DUPLICATE CONVICTION”, but received ‘9999 99TE CONVICTION’.

Can you please look.

Thanks,
Asma

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

This email comes from an external source, so remember, Think Before You Click!
Good morning,

Since this keeps getting caught in the state PII filter, I screen shot the message. Let's see if this works better.

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to th local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code “2” in UNI, which Monica’s program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - “SSN, Name, and DOB match; SSA records indicate person is deceased”.

Document ID: 0.7.1187.19298 DMV00051539

Please let me know if you have any questions.

Thank you,

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Document ID: 0.7.1187.19297 DMV00051567

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

Driver K is added.

You can do the CSOR.

Let me know once you are done, I will then send K8/K9/K10.

Thanks,
Asma

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Ok, the name validations need some work. Is it possible to jump ahead and run D12? We can re-run it after the fix but just wanted to see if those conditions are correct.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Ok, the CSOR completed this time.

I will be attending a meeting at the bottom of the hour for 30 mins. But you are welcome to run the inquires.

My availability after the meeting is questionable but I will let you know.

Gary,

Driver K is added.

You can do the CSOR.

Let me know once you are done, I will then send K8/K9/K10.

Thanks,
Asma

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Can I send # D2?

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Thursday, July 13, 2017 10:07 AM
To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>; Holenarsipura, Subramanya <SHolenarsipura@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

GM Gary,

I am OOO today, Siri will be testing with you and I will continue with the test tomorrow.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

I was expecting # D2 in error “DUPLICATE CONVICTION”, but received ‘9999 99TE CONVICTION’.

Can you please look.

Thanks,
Asma

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

It appears the MPR is still there for Driver A. Let me know if you need me to delete and re-add it.

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: Vote for CP-392

Hello Mina,

Hope you are having a good week so far. Thank you so much for your prompt response for the CP-392 survey!

I need a favor from you! We had to change some content for the CP-392 survey: We changed the choices from *YES* and *NO* to *APPROVE* and *DISAPPROVE* and lost your vote in the process!

Could you please submit your vote again, so that we have all the votes documented for future reference?

Thanks,
Madhu

Gary,

Hazmat for Driver K looks good.

Let me know if we can retest Driver E for Accident Locator.

Thanks,
Asma

Ok, the CSOR completed this time.

I will be attending a meeting at the bottom of the hour for 30 mins. But you are welcome to run the inquires.

My availability after the meeting is questionable but I will let you know.

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the

problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Gary,

Hazmat for Driver K looks good.

Let me know if we can retest Driver E for Accident Locator.

Thanks,
Asma

Ok, the CSOR completed this time.

I will be attending a meeting at the bottom of the hour for 30 mins. But you are welcome to run the inquires.

My availability after the meeting is questionable but I will let you know.

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Document ID: 0.7.1187.19291 DMV00051742

Gary,

D4 sent, error received.

But GPROST was sent as ‘02’, I was expecting ’01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

This email comes from an external source, so remember, Think Before You Click!
Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

GM Gary,

I am OOO today, Siri will be testing with you and I will continue with the test tomorrow.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 11:45 AM
To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

GM Gary,

I am OOO today, Siri will be testing with you and I will continue with the test tomorrow.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: AK - AMIE Online Re-write Meeting
Location: Conference Room Jaguar 4

Start: Wed 8/9/2017 12:30 PM
End: Wed 8/9/2017 1:30 PM
Show Time As: Tentative

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Creighton, Susan
Resources: Conference Room Jaguar 4

Conference Call Number: (888) 390-7016
PIN: 1509728

MEETING AGENDA and MINUTES
ALASKA – STATUS MEETING

Date of Meeting:	8/9/2017
Minutes Prepared By:	Susan Creighton
Location:	Conference Call – (888) 390-7016 pass code 1509728 Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Tentative implementation is set for early December 2017.

2. Attendance at Meeting (*add rows as necessary)*

Name	*Department/Division*	*Invitee*	*Attended*
Mina Peters	Alaska	√	
David Nolen	Alaska	√	
Dillon Pressley	Alaska – Resource Data	√	
Joshua Shoemaker	Alaska – Resource Data	√	
Patrick Anderson	Alaska – Resource Data	√	
Patrick Brosnan	Alaska – Business	√	
Debra Leonardo	Alaska – Business	√	
Katie Smith	Alaska – Business	√	
Casey Garber	AAMVA, Business Solutions	√	
Marney Michalowski	AAMVA, Business Solutions	√	
Susan Creighton	AAMVA, Lead Systems Analyst	√	
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- Online Scenario Testing
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

Document ID: 0.7.1187.18931-000001 DMV00051941

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	*Owner*	*Due Date*	*Status*

7. Next Meeting

Date: (MM/DD/CCYY)	*8/16/2017*	*Time:*	*4:30 pm – 5:30 pm ET*	*Location:*	*Jaguar Conference Room*
Agenda:	Will be Sent out Prior to Meeting

Hi Dillon,

I have reset this to after you finding that there was a duplicate and having the other state correct the issue.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

I can and have manually corrected the title date, but I'm not sure how the record got to be this way and the last modification to the record was on July 6th.

I think we should reset this one as well. Resetting to before or after the correction on your side both work for me.

Thank you,

Hi Dillon,

The previous jurisdiction is now blank on the HC for TC004but now the following fields are missing:

Missing Odometer Date
Missing Title Issue Date
Missing Title Status Date

Thanks,
Susan Creighton / 703.908.5893 office

I have reset the data for the test cases that failed except for the following:

I did not reset TC004 as I am just looking for a good HC. Let me know if you need to re-execute in order to produce the good HC.

For TC009 you will need to redo the CSOT in TC008 which already passed.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK NMVTIS - TC005

As far as I know, any in failed state are fine to reset.

We have changes coming down the pipeline for both tracking brands and tracking current titles, as per NMVTIS messages sent. I'm attempting to steer clear of anything that involves brands or undos of any sort as a result, but I think that accounts for the majority of remaining tests cases.

Here's my data for TC005:

Title Issue Date	New VIN	New Make	New Model Year	New Title Number	New STK	New Odometer Reading	New Odometer Unit of Measure	Brand Issue Date
20170713	AIVALIDVIN1TSTB05	INFI	2004	7277391	40183824	EXEMPT

Hi Dillon,

TC005 passed. You are correct the duplicate created does not affect the scenario we were testing for. But please do let me know before you test the test cases that have failed so I can reset them as most will be affected if the data remains the same. I left them as is in case you refuted anything. But if you are okay with them, I can go ahead and reset the ones that I show as failed.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

Here are screenshots for my most recent execution of TC005. Judging by the R2 returned, it seems like I should've reversed/asked you to reverse AIVALIDVIN1TSTB05 or use a different VIN. Regardless, that's not really the point of the test.

Thank you,

Hi Dillon,

When changing the VIN for a vehicle moving into state you need to use the UT (CSOT) transaction and fill the Old VIN field with the original VIN and the New VIN field with the new VIN. This will cause the old title record to move to the history of the new title record. If you send a UA with the new information the old title will remain on NMVTIS in current and look like it is a negotiable title.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to the local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Regards,

Mina Peters

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

This is the one that we discussed today. For this one I will add a new test for you to add the salvage brand which will be TC 006A and then test case 7 will use the brand you have mapped for after it has been repaired. You mentioned that you forgot to add the brand which was forwarded from another state for TC 006, when you did you sent a brand 10 add to us. When you are forwarding brands that have already been reported to NMVTIS you can add to your system and title but you should not send another brand to NMVTIS as that will appear as a different branding event. So let's start over with TC 006. Also, I will send an updated Test Case Plan today along with the status.

Test Case	Assoc Test Cases	Test Scenario
006	B - 06 B - 06A B - 07 K - 03	A vehicle moves into your state from NMVTIS batch state S9 and is titled.
006A	B - 06 B - 06A B - 07 K - 03	The vehicle in TC # 006 has been declared salvage by the insurance company.
007	B - 06 B - 06A B - 07 K - 03	Vehicle that was titled in TC # 006A is being sold to a new owner and has been repaired.

027	B - 06 B - 06A B - 07 K - 03	Owner wants a duplicate/replacement title for a vehicle in TC # 007 that had brands associated with it.

Thanks,
Susan Creighton / 703.908.5893 office

Hi,

I just want to make sure I understand. This test case indicates that the vehicle is being sold to a new owner and there is a branding event of salvage (junk in your case). So are you saying that you would not allow the new owner to title the vehicle until it is repaired?

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

As per Debra's response below, I've added the 11 brand for TC007 but Alaska does not issue a new title in this scenario. Unless the vehicle is once again reconstructed, it cannot be retitled.

Thank you,

Dillon,
In scenario A –
1/1/2015 is correct
1/1/2016 the model remains REC indefinitely and is never changed - after the vehicle is repaired and inspected it is retitled once again as a reconstructed vehicle to reflect a new owner of record.

In Scenario B, each step is correct – the model will not change from REC once it is recorded as REC on the first REC title issued.

Let me know if you have questions –

Thank you,

Subject: NMVTIS AK Rewrite - TC006 and TC007

Hello Susan & Debra,

Preface: For the purpose of discussion, Alaska does not recognize brand code 8 "junk". Alaska uses the description "**junked**" in place of "salvaged" and any uses of either are synonymous for brand code 11.

For TC007 (AISTRUCTREDTSTB06), I noticed a **reconstructed** brand exists from the previous state reported in 2015 when attempting to issue a new title for the sale of the vehicle titled in TC006. It seems I may have originally missed this and performed TC006 incorrectly as I should've branded that vehicle as **reconstructed** during the titling process.

Some additional information I obtained from Debra during a recent telephone conversation:

1. When a vehicle titled in Alaska is reported as **junked**, a brand is added to the existing pointer. A new title is not issued. Titles are never issued for vehicle presently considered **junked**.

2. **Reconstructed** is the only brand which will ever physically appear on a printed title. A **reconstructed** brand is issued when titling a vehicle that is branded as **reconstructed** in another state, or when a **junked** vehicle has met criteria to be presently considered **reconstructed**.

These details along with the discontinued behavior of replacing brands clarify the discrepancies with the answers originally provided in the questionnaires.

However, I'm unsure of the expected behavior when a vehicle is reported **junked** after being **reconstructed**, which appears to be what TC007 is testing.

Debra, could you please clarify/confirm the outcomes of the following sequences of events:

Scenario A.) An out-of-state vehicle with a **reconstructed** brand is titled in Alaska, then later is reported **junked** and sold to another Alaskan.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2015	An out-of-state reconstructed vehicle is titled in Alaska	Yes	Reconstructed	N/A
01/01/2016	The vehicle is reported junked and sold to a new Alaskan owner	No	Junked	Add J status message. Does the model remain REC or return to original? Perform no title issued to change owner?

Scenario B.) A vehicle currently titled in Alaska becomes junk, then is reconstructed and retitled, then later becomes junk again.

Date	Event	Title Issue (Yes/No)	Brands Issued (REC/Junked)	Additional
01/01/2014	A new vehicle is titled in Alaska	Yes	N/A	N/A
01/01/2015	The vehicle is reported junked	No	Junked	Add J status message.
01/01/2016	The vehicle is reconstructed and meets the criteria to be titled as such	Yes	Reconstructed	Remove J status message, changing model to REC.
01/01/2017	The vehicle is once again reported junked	No	Junked	Add J status message.

Subject: RE: NMVTIS AK Rewrite - TC009

Hello Susan,

I'm attempting to redo the CSOT from TC008 as directed under "Defect Reason" for TC009. I receive the following error: "GVCSOT301537:CORRECTIVE UNDO ISSUED - WAITING FOR UPDATE"

Thank you,

Subject: RE: NMVTIS AK Rewrite - TC009

Howdy Susan,

We're going to make some adjustments that will allow the NMVTIS help desk functions to change the active status of titles as appropriate. In situations where an undo is permanent and that title is truly invalid, the title must be present before the undo will be performed, and the title will then be voided via shredding and removed from the database via a designated function.

I'll let you know as soon as we have these changes made.

Thank you,

Hi Dillon,

When I did the re-drive of the SC it should have gone against your titling system anew. It should not have found that title or even that vehicle if you have removed it from your DB. I was expecting to receive the SC back in error with VIN NOT FOUND. Your system has been correctly responding automatically with SC error when the VIN or TITLE IS NOT FOUND on your DB. You are correct that the SC would not be sent to you from another state, but I am forcing it to ensure your database is staying in sync with NMVTIS. So please check your DB to see if that title really got removed.

I apologize about the H1, I was mistakenly looking at the H1 that was sent to you so I have removed that issue.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC009

Good morning Susan,

I've attached a screenshot showing there are no H1 messages sent by us recently. The only H1 messages we've sent were routing errors during casual testing. We're currently engaged in SPEX structured testing as well, and I believe you share some of the same message type for similar functions, albeit with vastly different parameter definitions.

I'm not really sure how to handle the title active status. In theory we'd be unable to receive an SC by normal means as we're no longer an active state of title. We revert the title for in-state change. The only situation where I could imagine it being relevant is if an another state performs a CSOT on an Alaska record, Alaska performs a CSOT on that same record taking it back, then both states undo their CSOT in reverse.

I apologize, in my haste to turn around your email I forgot the inquiry, requiring more time in the end. Would you like me to run the inquiry, reinstate the CSOT, run the inquiries, undo the CSOT?

Thank you,

Hi Dillon,

For TC009 there was no inquiry prior to the UNDO and when I re-drove the SC I see that the title is still active on your DB. Also you sent an H1 which I thought you did not have more than one occurrence of lienholder information.

Thanks,
Susan Creighton / 703.908.5893 office

Hello Susan,

I've completed the CSOT undo for TC009 using the help desk. Please find a screenshot attached.

Also, I incorrectly marked TC010 as T. Your initial H designation is correct.

Yes, at this point you would contact the state and find out they made a mistake. Please go ahead and send me your screenshots. Once I verify then we will move forward with TC009 where you will need to back out your transaction so they can correct.

Thanks,
Susan Creighton / 703.908.5893 office

This email comes from an external source, so remember, Think Before You Click!
My point is that if the clerk has reason to continue despite the mismatch, you should not send a UA unless there is not a record on NMVTIS for that vehicle. Instead you should still send the UT if the record on NMVTIS is for the same vehicle and the SOT is not you or UV if the record on NMVTIS is for the same vehicle and the SOT is you. So in most instances I would imagine that the clerk would not title, but if they do, please follow the process so that invalid duplicates are not created.

I have updated on my side so you can proceed with titling.

Thanks,
Susan Creighton / 703.908.5893 office

Susan,

I've passed the inquiry stage.

In general, a title mismatch is a manual stop. Thus the "if the clerk has reason to continue despite the mismatch."

Hi Dillon,

I changed the pointer. After you inquire, let me know and I will change on my side before you send the update.

Please note that in production you should not proceed with sending a UA as that will create a duplicate title in current. The only reason you should send a UA when there is already data on NMVTIS is if you know for sure that the VIN you are entering if for a different vehicle than the record with that same VIN on NMVTIS. Instead you should have the old state correct their information before titling. In this test case we will simulate that a change is made after you sent the inquiry but before you sent the update.

Thanks,
Susan Creighton / 703.908.5893 office

Subject: RE: NMVTIS AK Rewrite - TC008

Susan,

If there are records but none matching the supplied state/title, a notification is shown. If the clerk has reason to continue despite the mismatch, it defaults to sending a Title Add (UA) because would result in an error. If I continue titling as is, it will add a new title record. Alternatively, I can use the information on the pointer rather than the spreadsheet (or you can change the pointer) if you're expecting a CSOT (UT).

Hi Dillon,

For this test case please go ahead and title this and just pretend that you got an HC with the correct title number. If you cannot do that I will update our DB to send you the correct title number and then change it before you send the UT. This test suite is to ensure you can back out the title so another state can do a correction and then you re-title. It could be the state needs to correct a history record or the current record. Also, the old state could send an update between the time you do your inquiry and then send your update.

Thanks,
Susan Creighton / 703.908.5893 office

Yes, please delete them both. Since 7685503 still has all of the convictions and withdrawals, I plan to use 7685505 for the CSOR.

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Sent: Monday, July 17, 2017 12:18 PM
To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Ok, the name validations need some work. Is it possible to jump ahead and run D12? We can re-run it after the fix but just wanted to see if those conditions are correct.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Asma

There is a bottleneck in our deployment process causing further delays. We will need to pick this up again tomorrow morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony

Document ID: 0.7.1187.18923 DMV00052052

Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to the local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Regards,

Mina Peters

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Hi Nadeem,

Thank you for the updated spreadsheet. I have a question about one of the update test cases, Test Case **010.**

I did already process this test case 010, with the information below, and it was deemed passing:

Previous information:

AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Deborah
Middle Name:
Last Name: Ambles
SSN: 254-06-8202
DOB: 04/16/61

It looks like you updated this test case as the following:

AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Deborah
Middle Name:
Last Name: Ambles
SSN: 254-06-8202
DOB: 04/16/1661

I used birthdate year as **1961**, which resulted in a passing test case for you, but I was wondering if you need me to re-process this case as birth year **1661**?

Thanks for the clarification.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to the local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Hi Dillon,

Sorry I spoke too soon, when I checked each field of data you sent on the HC I see some data is missing. Is there a reason why these are not required to be provided since your questionnaire indicates you will always send?

Also, the odometer reading in the HC message is the old odometer reading and not the corrected value.

The following data is missing:

Vehicle Model Number
Fuel Type
Number of Cylinders

Thanks,

Hi Dillon,

Sorry I spoke too soon, when I checked each field of data you sent on the HC I see some data is missing. Is there a reason why these are not required to be provided since your questionnaire indicates you will always send?

Document ID: 0.7.1187.18918 DMV00052082

Also, the odometer reading in the HC message is the old odometer reading and not the corrected value.

The following data is missing:

Vehicle Model Number
Fuel Type
Number of Cylinders

Thanks,
Susan Creighton / 703.908.5893 office

Hello All,

I just wanted to re-cap all the SSOLV testing progress so far:

Test Case 004 – PASS – Email attached
Test Case 005 – Sent 08/09/2017
Test Case 006 – PASS – Email attached
Test Case 007 – PASS – Email attached
Test Case 008 – Sent 08/09/2017
Test case 009 – Sent updated screenshots indicating we are now retuning Code 6, after updates made to the test case, just awaiting verification from Nadeem
Test case 010 – Passing, but the new spreadsheet indicates the date of birth is 04/16/1661 instead of 04/16/1961. Inquiry to Nadeem if she would like a retest with this birthdate. Additionally, I made a small change to the system that response code 7 now has a more informative message and I will send an updated screenshot anyway after the correct date of birth for this test is confirmed

Thank you, and please let me know if there are any questions or concerns.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to the local social security office. We do not inform our customer that they are dead.

Document ID: 0.7.1187.18919 DMV00052094

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

It looks like you updated this test case as the following:
<image002.png>

I used birthdate year as **1961**, which resulted in a passing test case for you, but I was wondering if you need me to re-process this case as birth year **1661**?

Thanks for the clarification.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to the local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

Subject: RE: NMVTIS AK Rewrite - TC063

Hi Dillon,

Sorry I spoke too soon, when I checked each field of data you sent on the HC I see some data is missing. Is there a reason why these are not required to be provided since your questionnaire indicates you will always send?

Also, the odometer reading in the HC message is the old odometer reading and not the corrected value.

The following data is missing:

Vehicle Model Number
Fuel Type
Number of Cylinders

Thanks,
Susan Creighton / 703.908.5893 office

Document ID: 0.7.1187.18914 DMV00052126

This email comes from an external source, so remember, Think Before You Click!

Good morning,

Since this keeps getting caught in the state PII filter, I screen shot the message. Let's see if this works better.

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to th local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code “2” in UNI, which Monica’s program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - “SSN, Name, and DOB match; SSA records indicate person is deceased”.

Document ID: 0.7.1187.18914 DMV00052130

Gary,

Hazmat for Driver K looks good.

Let me know if we can retest Driver E for Accident Locator.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Hi Nadeem,

I tried it again and changed it to 1907 from 2007 (the test only says '07', which is interpreted to be in the most recent century). This still produced a "2".

However, I then noticed that you have a different SSN than the test – the test states
AK (AI) DMV sends the SSOLV inquiry with the following information:

First Name: Anthony
Middle Name:
Last Name: Debrito
SSN: 082-77-5005
DOB: 08/22/07

When I tried it with the DOB 8/22/1907 and the SSN 082077500, it did finally return a '6'. Please correct the test. Also, please be aware that Alaska treats the 6 return similar to the 2. We tell them they are unable to process and to go to the local social security office. We do not inform our customer that they are dead.

Monica, please reprocess with the data Nadeem provided below (not what's above) and you should get the correct answer. To show that we received a "6" please include a printout from DS menu function 15. Please note that I created an ID for driver 7685540, so you can process as a duplicate.

Regards,

Mina Peters

Subject: RE: AK (AI) SSOLV Capability end to end Testing Test Case 009

Good morning, Nadeem,

I have just tested this scenario myself in the current AK environment, and verified that SSA is returning the code "2" in UNI, which Monica's program is correctly interpreting. Here is the mainframe UNI response. So it is SSA that is sending the wrong response.

Monica,

Please revisit test case #009. Your system is responding with an SSOLV Verification Response of 2. The expected results should be a SSOLV Verification Response of 6 - "SSN, Name, and DOB match; SSA records indicate person is deceased".

Please let me know if you have any questions.

Thank you,
Nadeem

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the

problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

This email comes from an external source, so remember, Think Before You Click!
Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

I was expecting # D2 in error “DUPLICATE CONVICTION”, but received ‘9999 99TE CONVICTION’.

Can you please look.

Thanks,
Asma

Mina,

Good morning. Not yet. I am in the process of compiling the final deliverable this morning to send it off to the next phase, which would be Secondary Review. I will keep you posted.

I do not see an e-mail for test case #003. Please advise.

Thank you,
Nadeem

Yes, please delete them both. Since 7685503 still has all of the convictions and withdrawals, I plan to use 7685505 for the CSOR.

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Ok, the name validations need some work. Is it possible to jump ahead and run D12? We can re-run it after the fix but just wanted to see if those conditions are correct.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Document ID: 0.7.1187.18899 DMV00052404

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

GM Gary,

I am OOO today, Siri will be testing with you and I will continue with the test tomorrow.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

I was expecting # D2 in error “DUPLICATE CONVICTION”, but received ‘9999 99TE CONVICTION’.

Can you please look.

Thanks,
Asma

Gary,

Driver K is added.

You can do the CSOR.

Let me know once you are done, I will then send K8/K9/K10.

Thanks,
Asma

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Thanks for running that. I'll need to spend time fixing the name validations but we should be able to retest C15. Can we try it again?

Gary,

Hazmat for Driver A is looking good.

The only thing left is Driver N.

Let me know if we can proceed with # N5.

Thanks,
Asma

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 11:45 AM
To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

This email comes from an external source, so remember, Think Before You Click!
Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

For the last Test Case, received the correct error for # N5.

Do you have any other test cases that you would like to test ?

Please let me know.

Thanks,
Asma

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

This email comes from an external source, so remember, Think Before You Click!
Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

I was expecting # D2 in error “DUPLICATE CONVICTION”, but received ‘9999 99TE CONVICTION’.

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

That completes the First Pass for Baseline Structured Testing for AI.

Please give Sruti till Wednesday next week to complete her secondary review, once she is done, I will let you know her findings.

Could you let me know if you have the PDPS Casual Test Plan, if not I can send you. Also, there is a PDPS Baseline Test Plan , which will be sent soon.

Thanks,
Asma

Gary,

Driver K is added.

You can do the CSOR.

Let me know once you are done, I will then send K8/K9/K10.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Yes, please delete them both. Since 7685503 still has all of the convictions and withdrawals, I plan to use 7685505 for the CSOR.

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Ok, the name validations need some work. Is it possible to jump ahead and run D12? We can re-run it after the fix but just wanted to see if those conditions are correct.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Great, thanks Asma.

When do you think we will be able to schedule the second pass to begin? Or is it best to wait until the secondary review is complete?

I'm copying Lori, who will be performing the PDPS tests on this end. She completed the casual test and has the plan assuming this is the same document version you are referring to.

Gary,

That completes the First Pass for Baseline Structured Testing for AI.

Please give Sruti till Wednesday next week to complete her secondary review, once she is done, I will let you know her findings.

Could you let me know if you have the PDPS Casual Test Plan, if not I can send you. Also, there is a PDPS Baseline Test Plan , which will be sent soon.

Thanks,
Asma

Gary,

For the last Test Case, received the correct error for # N5.

Do you have any other test cases that you would like to test ?

Please let me know.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary, we always have to wait for the secondary review before beginning end-to-end…that's the "order".

Asma, Last we heard you were going to send us the PDPS Structured test plan this week…is that the same thing as the Baseline test plan? And no, we haven't received it – please send ASAP so we can begin setting up the drivers in our system. We have already completed PDPS casual tests in April with Siri, and had planned to begin structured testing immediately following SPEXS end-to-end.

Regards,

Mina Peters

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Great, thanks Asma.

When do you think we will be able to schedule the second pass to begin? Or is it best to wait until the secondary review is complete?

I'm copying Lori, who will be performing the PDPS tests on this end. She completed the casual test and has the plan assuming this is the same document version you are referring to.

Gary,

That completes the First Pass for Baseline Structured Testing for AI.

Please give Sruti till Wednesday next week to complete her secondary review, once she is done, I will let you know her findings.

Could you let me know if you have the PDPS Casual Test Plan, if not I can send you. Also, there is a PDPS Baseline Test Plan , which will be sent soon.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

It appears the MPR is still there for Driver A. Let me know if you need me to delete and re-add it.

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

Document ID: 0.7.1187.18891 DMV00052710

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Document ID: 0.7.1187.18891 DMV00052723

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary, we always have to wait for the secondary review before beginning end-to-end…that's the "order".

Asma, Last we heard you were going to send us the PDPS Structured test plan this week…is that the same thing as the Baseline test plan? And no, we haven't received it – please send ASAP so we can begin setting up the drivers in our system. We have already completed PDPS casual tests in April with Siri, and had planned to begin structured testing immediately following SPEXS end-to-end.

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Great, thanks Asma.

When do you think we will be able to schedule the second pass to begin? Or is it best to wait until the secondary review is complete?

I'm copying Lori, who will be performing the PDPS tests on this end. She completed the casual test and has the plan assuming this is the same document version you are referring to.

Gary,

That completes the First Pass for Baseline Structured Testing for AI.

Please give Sruti till Wednesday next week to complete her secondary review, once she is done, I will let you know her findings.

Could you let me know if you have the PDPS Casual Test Plan, if not I can send you. Also, there is a PDPS Baseline Test Plan , which will be sent soon.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

This is another fix. The problems with error responses may be a little more involved than the CSOR problem. I will see if I can resolve it fist so hopefully we can wrap up Driver C today. I'll let you know hopefully within the hour.

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Sent: Thursday, August 10, 2017 7:29 AM
To: Tancik, Gary (DOA sponsored)
Cc: Peters, Mina L (DOA); Singaraju, Sruti; McNeil, Lori (DOA sponsored)
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

Sruti will be done with her Secondary Review by Wednesday next week. If there are any issues found in the secondary review, we need to go back fix/re-test and start the End-End Pass for the Baseline Structured Testing.

And if there are no issues found, we can begin immediately with the End-End Pass.

SPEXS Testing is followed by PDPS Testing , since the Casual Test for PDPS was completed, we can start the PDPS Structured Testing once SPEXS Baseline Structured Testing is completed (First Pass and End-End pass) .

Let me know if you have any question,

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Great, thanks Asma.

When do you think we will be able to schedule the second pass to begin? Or is it best to wait until the secondary review is complete?

I'm copying Lori, who will be performing the PDPS tests on this end. She completed the casual test and has the plan assuming this is the same document version you are referring to.

Gary,

That completes the First Pass for Baseline Structured Testing for AI.

Please give Sruti till Wednesday next week to complete her secondary review, once she is done, I will let you know her findings.

Could you let me know if you have the PDPS Casual Test Plan, if not I can send you. Also, there is a PDPS Baseline Test Plan , which will be sent soon.

Thanks,
Asma

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

This email comes from an external source, so remember, Think Before You Click!
Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Gary,

D4 sent, error received.

But GPROST was sent as '02', I was expecting '01:

Value	Meaning/Description
*** ALL APPLICATIONS ***	
'00'	Processing successful
*** MOST APPLICATIONS ***	
* (all applications except 02, 05 & 12) *	
'01'	Processing unsuccessful
*** CDLIS (02) and SPEXS (37) ***	
'01'	Logic error
	(i.e. record not found or data look up error)
'02'	System error
	(i.e. file off-line)
'03'	Syntax error
	(i.e. element required, content or cross check)
'04'	Security Exception
	(i.e. authentication or authorization error)
'05'	
	Confirmation of new SOR, but DHR not ready
'06'	
	Message sent outside of CDLIS processing window
'07'	

Can you please look.

Thanks,
Asma

Thanks Asma

Siri, we left off at D2 and can continue when you're ready.

We also have not finished Driver C. I believe we left off at C12 if you'd rather pick up from there.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary, we always have to wait for the secondary review before beginning end-to-end…that's the "order".

Asma, Last we heard you were going to send us the PDPS Structured test plan this week…is that the same thing as the Baseline test plan? And no, we haven't received it – please send ASAP so we can begin setting up the drivers in our system. We have already completed PDPS casual tests in April with Siri, and had planned to begin structured testing immediately following SPEXS end-to-end.

Regards,

Mina Peters
Analyst Programmer V
State of Alaska
Division of Motor Vehicles

Great, thanks Asma.

Document ID: 0.7.1187.18888 DMV00052824

When do you think we will be able to schedule the second pass to begin? Or is it best to wait until the secondary review is complete?

I'm copying Lori, who will be performing the PDPS tests on this end. She completed the casual test and has the plan assuming this is the same document version you are referring to.

Gary,

That completes the First Pass for Baseline Structured Testing for AI.

Please give Sruti till Wednesday next week to complete her secondary review, once she is done, I will let you know her findings.

Could you let me know if you have the PDPS Casual Test Plan, if not I can send you. Also, there is a PDPS Baseline Test Plan , which will be sent soon.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

To: Syeda, Asma <ASyeda@aamva.org>
Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the

Document ID: 0.7.1187.18888 DMV00052835

problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

This email comes from an external source, so remember, Think Before You Click!
Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

The HB was sent with NCB Error as 'N' , and without the error "REQUESTED RECORD NOT FOUND".

Hence, had common validation errors :

ERROR BLOCK OUT	1	9999 99NAME REQUIRED
ERROR BLOCK OUT	4	9999 99DRIVER LICENSE NUMBER REQUIRED
ERROR BLOCK OUT	2	9999 99DOB REQUIRED
ERROR BLOCK OUT	5	
ERROR BLOCK OUT	3	9999 99STATE CODE REQUIRED

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Gary,

I was expecting # D2 in error “DUPLICATE CONVICTION”, but received ‘9999 99TE CONVICTION’.

Can you please look.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Thank you, Asma. Just to clarify, we can do the CD31 part of the SPEXS test any time, even while working on the PDPS structured testing or afterward, correct? If we do it as AI, will we need to do that again once we go to AK? If so, then we'll probably wait and do the CD31 test after we switch over.

Regards,

Mina Peters

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

Sruti will be done with her Secondary Review by Wednesday next week. If there are any issues found in the secondary review, we need to go back fix/re-test and start the End-End Pass for the Baseline Structured Testing.

And if there are no issues found, we can begin immediately with the End-End Pass.

SPEXS Testing is followed by PDPS Testing , since the Casual Test for PDPS was completed, we can start the PDPS Structured Testing once SPEXS Baseline Structured Testing is completed (First Pass and End-End pass) .

Let me know if you have any question,

Thanks,
Asma

McNeil <lmcneil@resdat.com>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Great, thanks Asma.

When do you think we will be able to schedule the second pass to begin? Or is it best to wait until the secondary review is complete?

I'm copying Lori, who will be performing the PDPS tests on this end. She completed the casual test and has the plan assuming this is the same document version you are referring to.

Gary,

That completes the First Pass for Baseline Structured Testing for AI.

Please give Sruti till Wednesday next week to complete her secondary review, once she is done, I will let you know her findings.

Could you let me know if you have the PDPS Casual Test Plan, if not I can send you. Also, there is a PDPS Baseline Test Plan , which will be sent soon.

Thanks,
Asma

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

This email comes from an external source, so remember, Think Before You Click!
Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Gary,

With the weekly DB Refresh, pointer was deleted.

Can you please add the pointer back, so I can send the UD message.

Thanks,
Asma

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Thank you, Asma. Just to clarify, we can do the CD31 part of the SPEXS test any time, even while working on the PDPS structured testing or afterward, correct? If we do it as AI, will we need to do that again once we go to AK? If so, then we'll probably wait and do the CD31 test after we switch over.

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

Sruti will be done with her Secondary Review by Wednesday next week. If there are any issues found in the secondary review, we need to go back fix/re-test and start the End-End Pass for the Baseline Structured Testing.

And if there are no issues found, we can begin immediately with the End-End Pass.

SPEXS Testing is followed by PDPS Testing , since the Casual Test for PDPS was completed, we can start the PDPS Structured Testing once SPEXS Baseline Structured Testing is completed (First Pass and End-End pass) .

Let me know if you have any question,

Thanks,
Asma

McNeil <lmcneil@resdat.com>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Great, thanks Asma.

When do you think we will be able to schedule the second pass to begin? Or is it best to wait until the secondary review is complete?

I'm copying Lori, who will be performing the PDPS tests on this end. She completed the casual test and has the plan assuming this is the same document version you are referring to.

Gary,

That completes the First Pass for Baseline Structured Testing for AI.

Please give Sruti till Wednesday next week to complete her secondary review, once she is done, I will let you know her findings.

Could you let me know if you have the PDPS Casual Test Plan, if not I can send you. Also, there is a PDPS Baseline Test Plan , which will be sent soon.

Thanks,
Asma

Gary,

Driver K is added.

You can do the CSOR.

Let me know once you are done, I will then send K8/K9/K10.

Thanks,
Asma

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Thanks for running that. I'll need to spend time fixing the name validations but we should be able to retest C15. Can we try it again?

Mina – Yes, we would also like to verify the CD31 file as AK. Having said that, in case you want us to verify the file formats etc (to iron out any issues), you can certainly send it from AI and we can validate the file.

Let me know of any further questions.

Thank you.

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Thank you, Asma. Just to clarify, we can do the CD31 part of the SPEXS test any time, even while working on the PDPS structured testing or afterward, correct? If we do it as AI, will we need to do that again once we go to AK? If so, then we'll probably wait and do the CD31 test after we switch over.

Regards,

Mina Peters

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Gary,

Sruti will be done with her Secondary Review by Wednesday next week. If there are any issues found in the secondary review, we need to go back fix/re-test and start the End-End Pass for the Baseline Structured Testing.

And if there are no issues found, we can begin immediately with the End-End Pass.

Document ID: 0.7.1187.18883 DMV00052950

SPEXS Testing is followed by PDPS Testing , since the Casual Test for PDPS was completed, we can start the PDPS Structured Testing once SPEXS Baseline Structured Testing is completed (First Pass and End-End pass) .

Let me know if you have any question,

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Great, thanks Asma.

When do you think we will be able to schedule the second pass to begin? Or is it best to wait until the secondary review is complete?

I'm copying Lori, who will be performing the PDPS tests on this end. She completed the casual test and has the plan assuming this is the same document version you are referring to.

Gary,

That completes the First Pass for Baseline Structured Testing for AI.

Please give Sruti till Wednesday next week to complete her secondary review, once she is done, I will let you know her findings.

Could you let me know if you have the PDPS Casual Test Plan, if not I can send you. Also, there is a PDPS Baseline Test Plan , which will be sent soon.

Thanks,
Asma

Gary,

We can come back to Driver A once you have fixed the issue.

Can we begin Driver K fresh. I will add the pointer and AI can do the CSOR.

Once AI is the new SOR, I will send the IM, SG, SB messages.

Thanks,
Asma

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

There apparently is a problem whereby a previous CSOR left the internal status of the pointer as not the state of record instead of recognizing the more recent UA. This requires a fix.

Did you want to try Driver K? The pointer with the hazmat threat code has DLN 7685503

Gary,

The pointer with DLN '7685481' is a non-CDL pointer.

When a CDLIS only state is sending the inquiry , no match is found.

Can you please add a CDL pointer for Driver A?

Thanks ,
Asma

Sure Gary,

Please add Driver A.

I will just do Inquiry, SG, SB and UD for the Hazmat indicator.

For Driver N, we can re-run the test case once Driver A and K re-test is completed.

Thanks,
Asma

Cc: Mina Peters, AK Dept. of Administration <mina.peters@alaska.gov>; Singaraju, Sruti <ssingaraju@aamva.org>
Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Sure, let's start with Driver A and K.

On the Driver N issue, the tests we ran this morning for Driver D verifies we are able to response with a "REQUESTED RECORD NOT FOUND" when non-numeric characters are in the license number, which is what I thought was causing the problem. However, using the internally logged request, I was unable to reproduce the application exception. I believe there may have been some other corruption of the message besides the DLN, such as binary data, etc, that was lost when we logged it. Maybe we will be able to reproduce the exception.

Gary,

For Driver N, I was sending the wrong DLN, instead of AI sending the SB/HB in error ""REQUESTED RECORD NOT FOUND" I was not receiving any response, (I have attached the email for your reference)

Other than this, you have pretty much covered everything.

Shall we start Driver A and K fix for Hazmat ?

Thanks,
Asma

From: Gary Tancik [mailto:Gtancik@resdat.com]
Sent: Wednesday, August 9, 2017 10:27 AM
To: Syeda, Asma <ASyeda@aamva.org>

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

That will require a fix, although it should be a relatively quick redeployment.

What are the other loose ends that we can try? I believe you wanted to verify hazmat threat determination on Driver A and K and also check the accident locator reference on Driver E. Those are ready. Anything else?

Subject: RE: AI-SPEXS 6.0 Baseline Structured test plan - FP-Driver D

Ok, the name validations need some work. Is it possible to jump ahead and run D12? We can re-run it after the fix but just wanted to see if those conditions are correct.

Hi Asma,

Sorry for the long delay. We've come up with a more streamlined deployment approach. Going forward I should be able to apply fixes much faster.

None the less, I'm applying the latest fixes now so we'll need to pick this up again in the morning.

Thanks
Gary

MEETING AGENDA and MINUTES
ALASKA – STATUS MEETING

Date of Meeting:	8/9/2017
Minutes Prepared By:	Susan Creighton
Location:	Conference Call – (888) 390-7016 pass code 1509728 Jaguar Conference Room Time: 4:30 PM – 5:30 PM ET

1. Purpose of Meeting *(prepare and distribute in advance of meeting)*

Discuss status of NMVTIS implementation re-write for AMIE integrated online updates and inquiries with initial load. Tentative implementation is set for early December 2017.

2. Attendance at Meeting (*add rows as necessary)*

Name	*Department/Division*	*Invitee*	*Attended*
Mina Peters	Alaska	√	√
David Nolen	Alaska	√	√
Dillon Pressley	Alaska – Resource Data	√	√
Joshua Shoemaker	Alaska – Resource Data	√	
Patrick Anderson	Alaska – Resource Data	√	√
Patrick Brosnan	Alaska – Business	√	
Debra Leonardo	Alaska – Business	√	
Katie Smith	Alaska – Business	√	
Casey Garber	AAMVA, Business Solutions	√	
Marney Michalowski	AAMVA, Business Solutions	√	
Susan Creighton	AAMVA, Lead Systems Analyst	√	√
Amir Chaudhry	AAMVA, Lead Systems Analyst	√	

3. Meeting Agenda *(prepare and distribute in advance of meeting)*

- Online Scenario Testing
- Next Steps
- Questions & Concerns

4. Meeting Notes, Decisions, Issues

Online Scenario testing status. 83 total online scenario testing cases:

48 Test Cases have passed, 8 Test Cases are in failed status, 2 are with AAMVA to be validated and 26 have not been executed.

Document ID: 0.7.1187.18880-000001 DMV00053001

Once all the test cases have passed for the online scenario testing, we will do a regression test of about 20 – 25 test cases to ensure that as defects were fixed, test cases that passed before still work.

NEXT STEPS:
Complete first pass of online scenario testing
Regression test online scenario testing
AAMVA create initial load test case plan
Structured testing of the initial load process

5. Action Items *(add rows as necessary)*

Action	Assigned to	Due Date	Status

6. Issues Identified *(add rows as necessary; issues are unplanned items of impact that require action)*

Issues	*Owner*	*Due Date*	*Status*

7. Next Meeting

Date: (MM/DD/CCYY)	*8/16/2017*	*Time:*	*4:30 pm – 5:30 pm ET*	*Location:*	*Jaguar Conference Room*
Agenda:	Will be Sent out Prior to Meeting

Dear Alaska Team,

Congratulations on passing the Structured testing graciously for SSOLV.
Just a quick reminder to state that Alaska will need to get the Security Plan signed off by SSA before going live in Production with the rewrite of SSOLV.
This is a requirement by SSA.
If you have already initiated the process please confirm the same otherwise you will need to reach out to Mr. George Rodriguez at SSA.

I will send an email to George Rodriguez and Cc the Alaska Team on this so you have his contact information.

Please do not hesitate to let me know if you have any questions.

Thanks
Nalini Rangaraju

Subject: Alaska System Rewrite - SSOLV

Good afternoon George !

How are you doing ? I was hoping to be able to meet you in person during the Audit on Tuesday, August 8th, but got to meet with your other colleagues.

I am reaching out to let you know Alaska is doing a System rewrite and are moving from Mainframe UNI to Windows UNI.

Mina Peters is the POC from Alaska who will work with you on the Security Plan and is in the Cc on this email.

Please let me know if you need anything from us.

Thanks

Mina,

Good afternoon. The SSOLV Structured Testing has been completed successfully, no issues to report. Thank you to you and Monica for all your help.

Regards,
Nadeem

Mina,

Good morning. Not yet. I am in the process of compiling the final deliverable this morning to send it off to the next phase, which would be Secondary Review. I will keep you posted.

I do not see an e-mail for test case #003. Please advise.

Thank you,
Nadeem

Good afternoon George !

How are you doing ? I was hoping to be able to meet you in person during the Audit on Tuesday, August 8th, but got to meet with your other colleagues.

I am reaching out to let you know Alaska is doing a System rewrite and are moving from Mainframe UNI to Windows UNI.

Mina Peters is the POC from Alaska who will work with you on the Security Plan and is in the Cc on this email.

Please let me know if you need anything from us.

Hi Dillon,

Sorry I spoke too soon, when I checked each field of data you sent on the HC I see some data is missing. Is there a reason why these are not required to be provided since your questionnaire indicates you will always send?

Also, the odometer reading in the HC message is the old odometer reading and not the corrected value.

The following data is missing:

Vehicle Model Number
Fuel Type
Number of Cylinders

Thanks,
Susan Creighton / 703.908.5893 office
